

WIND STRAPPING

We have found the best way to throw your wind strapping over the Greenhouse is to use a water bottle or soda bottle filled with water. It will not puncture or cut your film. Simply tie strapping onto the bottle (**Figure 2**) and throw over the greenhouse.

Figure 1

Equally space your strapping the length of your greenhouse. Strapping should be placed between the hoops, see **Figure 1**.

Figure 2

Figure 3

Figure 4

When attaching strapping to your base or head board, fold over twice for strength (**Figure 4**). Use a washer and wood screw to attach (**Figure 3**).

Please feel free to call us if you have any questions.

LIMITATION OF WARRANTY: Grower's Solution, LLC makes no warranty either expressed or implied, as to any matter in connection with the sale or use of goods or services offered nor does the company make any warranty of merchantability of fitness for any purpose. Grower's Solution, LLC is not responsible for improper assembly or improper installation of any products. If any item is warranted by the manufacturer, the buyer shall look solely to the manufacturer for redress of the manufacturer's warranty.

RECOMMENDATIONS: All recommendations by us are compiled for recognized horticultural sources. Because conditions of use which are of critical importance are beyond our control, we make no warranty or representation, expressed or implied, except that all products conform to the description of the label. We are not responsible for damage or failure because of any recommendations given by us or our personnel. Our liability as the seller shall be limited to the stated selling price of any defective goods, which in no event shall include buyers cost, lost profits or good will, or any other special consequential damages.
